ABOUT ME

Motivated and detail-oriented professional with 1.7 years of experience . Skilled in financial modeling and market research, with a keen interest in leveraging data-driven insights for business growth. Eager to apply analytical and technical skills in a dynamic work environment to drive impactful financial and strategic outcomes.

PROFESSIONAL EXPERIENCE

Deputy Manager - Innovation
Shriram Life Insurance
04/2024 - 10/2025 Hyderabad

- Optimized 25+ resource planning workflows using **Alteryx**, streamlining internal operations and reducing manual effort.
- Prepared and presented financial reports to facilitate strategic collaboration with partner banks.
- Spearheaded the development of innovative insurance products using **Empathy Maps**, **Market research**, and user CODEX, resulting in differentiated offerings and expanded market reach.
- Conducted mortality analysis across 655+ districts, collaborating with actuarial teams to **pinpoint high-growth geographies** and enhance product viability.
- Led a **strategic blockchain integration project** to automate claims settlement, significantly boosting operational efficiency and reducing turnaround time.
- Created 8+ targeted value propositions aligned with diverse customer segments, strengthening product-market fit.
- Designed population heatmaps leveraging district-level demographic data to identify customer clusters, enabling the launch of 40+ new sales venues.

PROJECTS

- Financial Modeling & Valuation Tool - [Link](#)**
- Built an **interactive valuation dashboard** by integrating Yahoo Finance APIs, automating DCF valuation and revenue forecasting (5–10 year horizon), reducing manual Excel modeling effort by 70%+, and enabling real-time scenario testing.
 - Implemented **advanced sensitivity analysis**, generating valuation scenarios through heat maps supporting equity research and FP&A decision-making.
 - Engineered a resilient financial-data backend using Flask, yFinance, and Supabase caching, with retry logic and proxy rotation to improve the reliability of market-data fetch and reduce repeated API load.

- Ratio Analysis Application - [Link](#)**
- Built a **financial ratio analysis dashboard** that extracted financial statements (income statement, balance sheet, cash flow) from public company filings via Yahoo Finance.
 - Conducted **comprehensive ratio** analysis (profitability, liquidity, leverage, efficiency, and market ratios) to evaluate corporate performance and financial health.
 - Created **interactive visualizations** and reports to support investment evaluation, peer comparison, and decision-making processes.

INTERNSHIP

- Investment Banking - Live Project
Finlatics
12/2024 -02/2025
- Gained hands-on experience in financial markets, equity research and investment banking analyzing 20+ stocks across different sectors.
 - Analyzed stock market trends, created financial models, and evaluated investment opportunities.
 - Conducted risk assessment and portfolio management for a simulated portfolio worth ₹2Lakh+, optimizing asset allocation.
 - Developed skills in fundamental & technical analysis, valuation techniques, and financial reporting.

- Operations Intern
K-12 Techno Service
04/2023 -05/2023 Pune
- Ensured high accuracy in **financial data validation**.
 - Streamlined data management by resolving data-related inconsistencies, strengthening **financial reporting accuracy**, and **master data governance**.
 - Applied advanced Excel functions to **streamline financial reconciliation**, ensuring **data accuracy**, **discrepancy resolution**, and **efficient reporting**.
